

THE DANCE - January

I worked with Brian, Cindy and Lucky at Brian's school program. It confirmed my opinion that there no better way to learn a subject than teach it. Brian did a wonderful job. He certainly knows how to work with Kids. I have taught in many areas including to my peers in Parks and Recreation and Playground Safety – There is nothing that teaches you as much about your subject than trying to teach others about the subject. You really missed a great opportunity. I really hope we participate in more teaching- learning experiences. Brian said he does 27 of these teaching assignments every year. No wonder he knows so much about bees.

Did you read the article posted by the Sacramento Beekeepers Association about the breed of bees in Australia that builds their hives in circular pattern rather than the frames we are use to? We will have to ask Brian about that. Just checking to see who keeps up with the news on line about Bees.

Has anyone bought bees or queens from the new Bee Box? If so what was your reaction? Were their prices comparable? Was the service what you expected?

We will be trying out a new style of monthly meeting starting tomorrow. Please everyone contribute. Let me know what you think. Somehow, I know you will.

The **Spease Bees Honey Company, Inc.** will be relocating to new facilities at 9110 Union Park Way, Suite 106, Elk Grove. We out grew our current location. We are now in over 80 grocery locations, A couple of breweries several restaurants and a few bakeries and bars. We also have a new Mascot. We had a contest on line to pick a name for her; the name is "Poly"- short for pollinator

Just a little bit more information about my company. We will start selling honey bulk in the bay area Lucky's store at the grand opening of a new store in Dublin on March 15. We just receive confirmation that we will be selling honey at the Lucky's store in Carmel CA.

Please make it a point to visit our club Web page and Facebook frequently and submit ideas and articles as often as you can.
